Sales Management

Application of extensive marketing knowledge combined with hands on and structured management ensures that all developments supported by LEAR Land & New Homes are marketed to maximum effect.

LEAR Land & New Homes has successfully sales managed a wide range of developments, including apartments for first time buyers, shared equity schemes, developments for the over 55's, family homes, barn conversions, one-off individual homes, waterside developments and large developments of one to five bedroom homes.

Depending on the house builder's needs we provide support right from site purchase, through 'off plan' marketing to stepping in to sell stock plots. We are experienced in appointing the appropriate local estate agent, who quickly becomes part of the team who work together to achieve sales.

Our consistent approach and attention to detail is evident across all sales management activity we carry out.
